

WIRE	COLOR	LOCATION	POL.
Battery 1	Red	Ignition Harness	Positive
Ignition 1	Pink (1)	Ignition Harness	Positive
Ignition 2	White (1)	Ignition Harness	Positive
Starter 1	Yellow	Ignition Harness	Positive
Accessory 1	Orange	Ignition Harness	Positive
Accessory 2	Brown	Ignition Harness	
Parklights Positive	Brown	At Parking Light Switch Harness	Positive
Brake Lights	White	At Brake Switch (Above Brake Pedal)	Positive
Horn	Black	At Steering Column	Negative
Tach	White	At BCM Module (under Hood,under battery)	4 Cyl.
Lock	Lt.Blue	Driver's Kick Panel (3)	Positive
Unlock	White	Driver's Kick Panel (3)	Positive
Trunk	Black	At Trunk Switch Harness	Positive
E-Brake	Dk-Green/White	At Parking Brake Switch	Negative
Disarm	Lt.Green	At Keyless Module (under steering column)	Negative
Rearming	Type 1 (4) (5)		
Dome Sensor	Purple	At Dome Light Switch	Negative
KeySense	Lt-Green	At BCM Module (below steering colunm)	Negative
Door Pin FL	Tan	At BCM Module (below steering colunm)	Negative
Door Pin RL	Dk-Blue/White	At BCM Module (below steering colunm)	Negative
Door Pin FR	Dk-Blue/White	At BCM Module (below steering colunm)	Negative
Door Pin RR	Dk-Blue/White	At BCM Module (below steering colunm)	Negative
Rear Defogger	White	At Defogger Switch Harness	Negative

IM/OM Compatibility

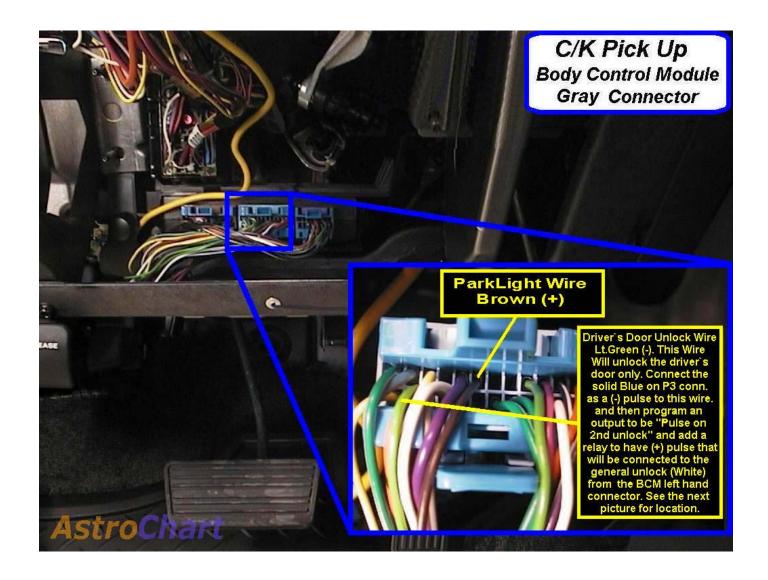

- OM-Passlock-3 (310-061-512) OM-Passlock-4 (310-907-550) OM-Passlock-5 (310-907-551) OM-Passlock-6 (310-907-552)
- OM-Passlock-6 (310-907-552) GMBP 555L(W)

Comments:

Note: This vehicle is equiped with a immobilizer system that needs to be bypassed, (passlock 2)

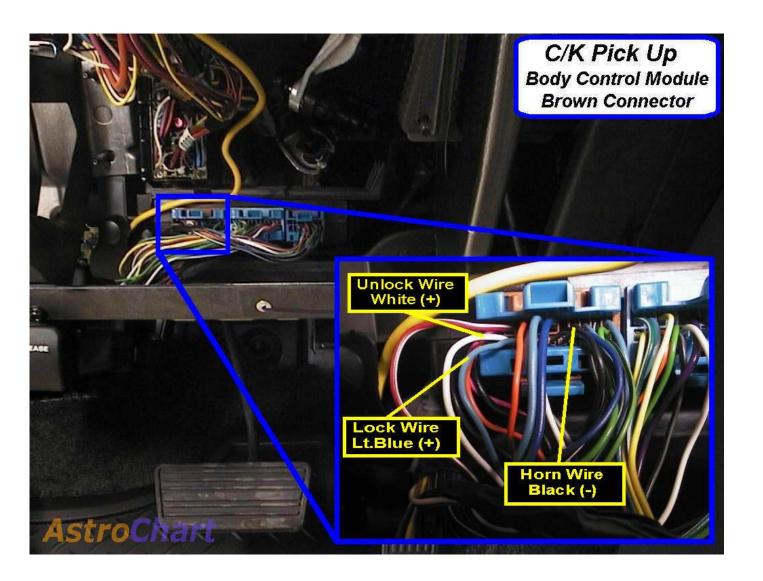

- (1) Some models have a Pink/White 3rd. ignition wire that must be powered when doing remote start.
- (2) ECM is located on drivers side inner fender. Tach wire found in a black plug marked "White".
- (3) If the vehicule is equiped with a keyless entry, door locks are positive.
- (4) Driver door pin tan (-) at keyless under steering column.
- (5) Have to Absolutely pulse the driver's door pin after the run time. If not, the radio will stay ON and shut down the battery

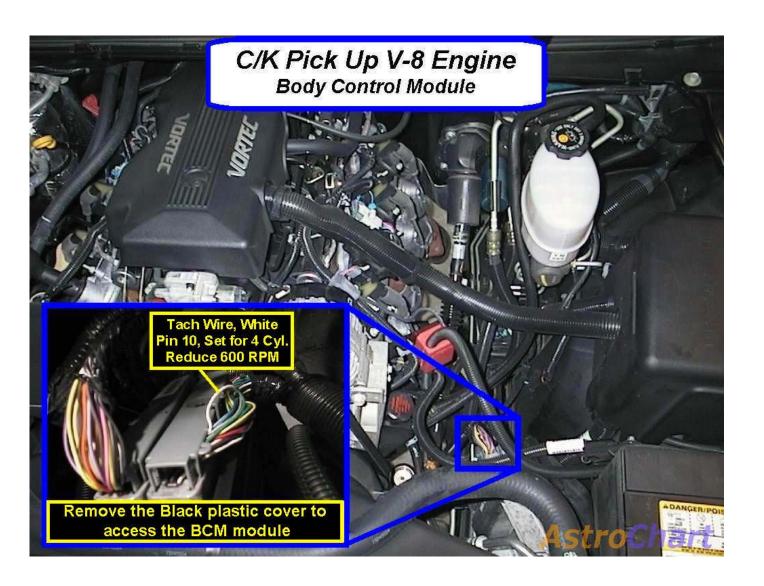

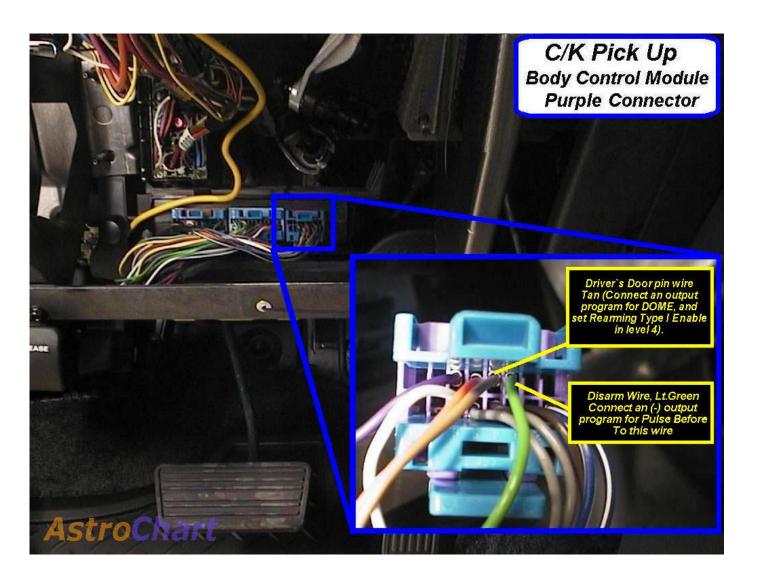

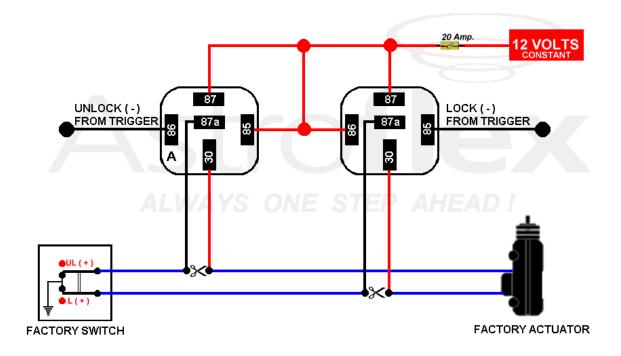

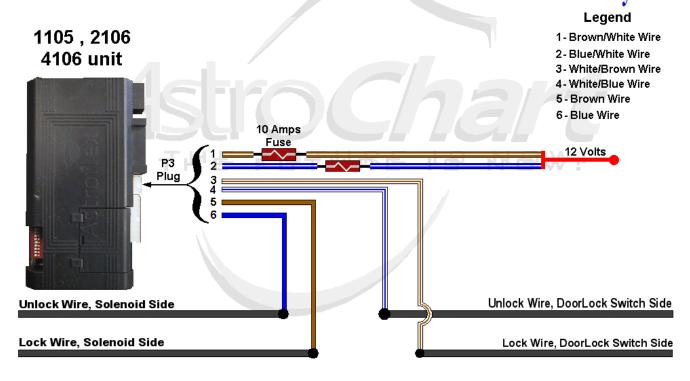

REVERSE POLARITY DOOR LOCK

Reverse Polarity

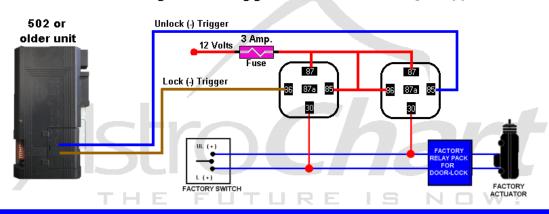

On AstroStart modul that has P3 connector with built in door lock relay

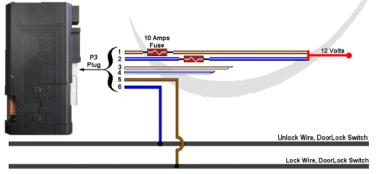

Positive Polarity DoorLock

With Negative Trigger Door Lock Output (-)

On AstroStart modul that has P3 connector with built in door lock relay

Legend

- 1- Brown/White Wire
- 2-Blue/White Wire
- 3- White/Brown Wire
- 4-White/Blue Wire
- 5 Brown Wire
- 6 Blue Wire
